Be sure to ask for the double strength Othine, as this is gold under guarantee of money back if it fails to remove freckles.

**Crisp After Many Weeks**  
Think what it means for the air in your Refrigerator to be so cold and dry that soda crackers can be left in it for weeks and keep their crispness. It means that everything else is equally free from the condensing moisture that spoils foods in ordinary refrigerators, taking away their freshness, making butter and cream taste like bananas, onions or anything but themselves.

**The Health of Your Family**  
demands fresh, wholesome, appetizing food. Nothing in your home is more important than your Refrigerator. Before you decide to buy one, compare it with a Bohn Syphon, the Refrigerator used in the dining cars of the Pullman Company and practically all American railroads, the Refrigerator preferred by hundreds of leading hotels, clubs, institutions and by thousands of prominent persons.

**Look for These Features**  
See if its insulation compares with the Bohn 9-layer insulation, with two half-inch thicknesses of Flaxinum. See if it has a one-piece round-cornered lining of fused porcelain-steel (not enamel). See if it has a galvanized steel ice-chamber, a front drain, solid brass hardware, etc.

Then call and see a Bohn; or telephone or write for catalog.
